Subj.: Preparation of Bioavailability Samples

cc: Bonnie Lavelle

**ADMINISTRATIV** 

RECORD

Hi Kevin.

As per Bonnie's request, please prepare two samples for the bioavailability study. I have attached a list of candidate properties, listed in order of preference. We will need one property from each list. For each property, please determine if there is sufficient sample ( $\geq 700$  g), then composite the sub-samples, dry, and sieve to  $\leq 250~\mu g$ . We will need the following aliquots from each sample:

1 bag - 10g

1 bag - 10 g

1 bag - the remaining portion

There should be a total of three bags for each of the two properties. Please feel free to call me at (303) 292-4142 x 256 if you have any questions.

Thanks!
